PUBLIC HEARING to Amend Article 3, Section 3.1 Districts, to create a new District
(continued)

Attorney Joel Green spoke briefly and submitted two new documents.

The chairman took note of the following items:

1. Page 91 of the Town Plan of Conservation and Development.
2. Memo dated May 29, 2013 from Joel Z Green, The Law Offices of Green & Gross, P.C. to Planning & Zoning Commission of the Town of Easton.

The chairman also signed a small architectural rendering of the exhibit used at the last public hearing and referred to again at this public hearing (Proposed Wilfred Tressler Architectural Design).

The Commission questioned whether all the owners of property within the Town Green Center were noticed regarding their involvement in this Center.

Attorney Green responded that there was no statutory requirement to notify the owners of the Town Green Center. He also stated that this text amendment would not set a zoning precedent and read his Conclusion from his memo dated May 29, 2013.

Mr. Hayes raised several planning issues regarding the Town Green Center including items on parking, water supply, sewage system, landscaping and traffic calming.

The Commission questioned whether the proposed amendment contained enough specific information about how this district would be developed.

The Chairman requested that Attorney Green supply the Commission with development standards for the Town Green Center.

Attorney Green agreed to supply the Commission with development standards for the Town Green Center at the next meeting.

The Chairman recessed the public hearing to Monday, June 10, 2013 at 7:30pm at the Helen Keller Middle School Cafetorium, 360 Sport Hill Road.

At approximately 10:20pm motion was made by Steve Carlson, seconded by Wallace Williams, to adjourn the meeting. The vote to adjourn was unanimous, 4 in favor, none opposed
